

REMARKS

Claims 12-31 are pending in the application and have been allowed. Minor corrections have been made to the specification and drawings. Allowance of the application is respectfully requested.

Applicants gratefully acknowledge the indication that the application is in condition for allowance except for the various formal matters. Accordingly, Applicants submit herewith formal drawings that include the appropriate drawing corrections in Figure 2 per the attached. Also, Applicants have deleted the table of reference numbers per the Examiner's request. While Applicants submit that nothing prohibits the inclusion of a table of reference numbers in a U.S. patent application, it nonetheless has agreed to delete the table as each of the components identified in the table of reference numbers is also described elsewhere in the specification.

In view of the above, Applicants submit the application is now in condition for allowance. An early notice to that effect is solicited.

If there are any questions regarding this amendment or the application in general, a telephone call to the undersigned would be appreciated since this should expedite the prosecution of the application for all concerned.

If necessary to effect a timely response, this paper should be considered as a petition for an Extension of Time sufficient to effect a timely response, and please charge any deficiency in fees or credit any overpayments to Deposit Account No. 05-1323 (Docket #1662LO/50208TR).

Respectfully submitted,
